

## NDD2 Ground Meats/Dysphagia Menu

Your healthcare providers have ordered an **NDD2 Diet with Ground Meats** for you. This diet consists of foods that may be chopped or ground and are also moist, soft-textured, and easier to swallow. Dysphagia diets are used when disordered swallowing is occurring in any phase of the swallowing process, to limit the risk of aspiration. Foods on a Dysphagia Diet are easily formed into a bolus. If you have additional special diet needs for diabetes, heart health, kidney function, etc., the Room Service Representatives will assist you with selections that also meet these needs for your overall health and recovery.

A **Thickened Liquids** restriction is often necessary for people with swallowing problems. Thickened liquids give better control of fluids in the mouth, so they can be swallowed safely and reduce the risk of liquids entering the trachea (windpipe).

For all diet orders, please try to select a balanced meal for good health and recovery, as illustrated by the My Plate diagram below.

### Our Dietitians

We have dietitians available who can answer any questions you may have regarding your prescribed diet or any other nutrition questions you may have.

They make rounds on the floors frequently. If you have questions, please ask to speak with a registered dietitian.

### Room Service Guest Trays

Guest trays for visitors of patients are available for delivery to patient rooms from 6:30am to 7:00pm, one guest tray per meal. Guest selections may be made from the Regular Room Service menus, limited to 1 entrée, 3 sides, 1 bread, 1 dessert, and 2 beverages. Guest Tray fees are payable by cash only upon delivery of the tray.

### For Visitors

Café 335 is located on the first floor of the hospital, with a variety of food options available.

The hours of operation are:

1:00am to 3:00am offering a varied menu

6:30am to 10:45 am for breakfast

11:00am to 7:00pm for lunch and dinner

For daily café menu call 567-309-MENU (6368) from inside or outside the hospital.

Vending machines are also available throughout the hospital.

(If at safety risk or pregnant, consider avoiding deli meats or asking that they be heated.)

To help you select items that comply with the diet order your physician has prescribed, please note the following symbols:  
♥ - Item lower in fat and sodium and also appropriate for cardiac and reduced sodium diets.  
12- Indicates the number of carbohydrate grams the food contains. Helpful for patients needing to balance carbohydrate intake. Totals are rounded and may vary slightly if manufacturers change their products.  
R - Item is lower in sodium, potassium and phosphorous and appropriate for renal diets.
